

Gentlemen,

I strongly object to any federal interference with the existing Wisconsin No Call List and I even more strongly object to attempts by the Consumer Bankers Association and each of its member banks to overthrow this highly successful program. The Wisconsin No Call List very effectively protects Wisconsin citizens from unsolicited nuisance calls from such vultures. Approximately 80% of those eligible in Wisconsin have signed up for the protection offered by the Wisconsin No Call List.

To win the admiration of a grateful nation I strongly urge the FCC to adopt the Wisconsin model as a national standard. As a nation we have no tolerance for home invasion by burglars and the same should apply to nuisance callers.

Sincerely,

Paul E. Sandvick  
Racine, Wisconsin
